

Amplify ELA Professional Development Offerings

Whether you are implementing our program for the first time or strengthening your instructional practices based on your students' needs, our goal is to support the growth and success of all students. Amplify offers a wide range of professional development offerings that are designed to meet the unique needs of teachers and instructional leaders across different stages of learning:

Foundations

Foundations sessions introduce you to Amplify ELA and support you in a strong implementation. After learning about the foundational principles of the program's approach, and how to navigate the platform, you will practice delivering lessons within a collaborative environment.

Strengthening

Strengthening sessions deepen your understanding of the program's core instructional practices. Session offerings focus on using embedded supports, data analysis (including looking at student work), close reading, and writing instruction to effectively address your students' needs.

Coaching

Coaching sessions elevate your instructional practice and support teachers' and schools' specific needs. You'll receive in-the-moment feedback and engage in collaborative planning.

Choose from a menu of popular topics geared to teachers and/or Instructional Leaders that include, but are not limited to, lesson modeling (conducted by an Amplify coach), classroom observations, or grade-level planning. The flexible onsite coaching design allows you to customize your time with an Amplify coach.

Professional Development Packages

We offer Professional Development Packages designed to support schools and districts with successfully implementing Amplify ELA and elevating literacy instruction in Year 1 and beyond. Each PD Package offers a different level of support for key stakeholders, using a variety of delivery modalities. We will also partner with you to design a custom PD proposal.

Amplify ELA Professional Development Formats

We work with you to meet your specific needs using flexible formats:

Onsite Support

These sessions are delivered onsite at the customer's preferred location and support up to 30 participants.

Remote Support

These sessions are delivered remotely by an Amplify facilitator and support up to 15 participants.
