mCLASS® Professional Development Offerings

Students don't become proficient readers simply because we give them a reading assessment. They'll succeed when we gather reliable assessment data, analyze their needs, and use the data to deliver targeted instruction. Our professional development offerings are designed to support teachers and leaders in moving along the continuum of assessment administration to application as you implement your mCLASS assessment products:

Foundations

Foundations sessions introduce you to your mCLASS assessment and support you in gathering reliable data. After learning about the assessment's design and features, you'll practice administering the multiple assessment measures within a collaborative environment.

Strengthening

Strengthening sessions deepen your understanding of what your students know and need to learn based on data. You'll learn how to interpret your assessment reports and use them to plan how to effectively address your students' instructional needs.

Coaching

Coaching sessions elevate your instructional practice and support teachers' and schools' specific needs. You'll receive in-the-moment feedback and engage in collaborative planning.

Choose from a menu of popular topics from observing best practices for assessment fidelity to analyzing progress monitoring data in grade level teams or work with an Amplify coach to customize your time together.

Comprehensive Package

The Comprehensive Package supports you in effectively implementing your mCLASS assessment and will take place across three full days. The first two sessions support teachers with gathering and analyzing data and will be delivered onsite. The third session will support school or district administrators and be delivered remotely be a live Amplify facilitator.

mCLASS® Professional Development Formats

We work with you to meet your specific needs using four flexible formats:

Onsite Support	Remote Support	Remote Flipped Webinars	Online Course
These sessions are delivered onsite at the customer's preferred location and support up to **30 participants.**	These sessions are delivered remotely by an Amplify facilitator and support up to **15 participants.**	These sessions include independent, self-paced study and assignments for participants, followed by live webinars to discuss and deepen learning. This format supports up to **15 participants.**	These sessions are taken by the participant at their own pace and are completed independently.
